Industrial fans (EVG technology)

Axial and centrifugal fans designed to be tailored for different process conditions.

OVERVIEW

Technological cooperation with EVG combines fan engineering and local manufacturing to meet small, medium and large applications in Latin America.

BENEFITS AND CHARACTERISTICS

- Tailor-made design for each application
- Axial and centrifugal settings
- Wide flow range, pressure and temperature
- Local manufacture of components

This summary is informative. Dimensions, materials, performance and final scope are defined by engineering after the diagnosis of the actual conditions of the process.
